<div align="center">

APPLICATION FOR VARIATION – ADDITIONAL SHEET
(BOAT REPLACEMENT- FURTHER INFORMATION)

</div>

This form is to be used in conjunction with an Application for the Variation Form V-1 where it is proposed to replace a boat nominated on the authorization with another boat.

Details of Application for Variation:

Authorization Holder: ....

Date of execution of Form V-1: ....

Note (1): Replacement boat currently licensed
A fishing boat may only be licensed under one fishing boat licence at any one time.

A fishing boat that is presently nominated on another FBL can <u>only</u> be proposed as the replacement boat under this application where the holder of that other fishing boat licence <u>has applied</u> to vary that fishing boat licence to remove the boat from the licence.

Security Interests - If the proposed replacement boat is already the subject of a current fishing boat licence the consent of any security interest holder in respect of that licence may be required.

Note (2): Boat replacement policies
There are various 'boat replacement' policies in Management Plans for different fisheries which require additional information to be provided - e.g. - additional information is required for replacement boats in trawl fisheries - i.e.
Length (metres), Breadth (metres),Moulded depth (metres) and Installed engine power (kw)

Note (3): On-board Processing
If the proposed replacement boat is in substitution for a boat in relation to which a fish processing permit has been issued, an application for a permit for the replacement boat may be required.

Note (4): Dinghy Replacement Policy
The policy applicable to dinghy replacements is summarised as follows -

Permitted Size Range	Permitted Replacement Size	Commercial Survey *
Less than 5.5m	Less than 5.5m	Survey Exempt (5nm)
5.5m to less than 6.5m	Less than 6.5m	15nm

* *WA Marine (Surveys and Certificates of Survey) Regulations 1983*, Regulations 10,10A and 11
